Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) An agricultural livestock feedstuff comprising
animal feedstuff;
sorbic acid and
at least one added active enzyme,
wherein the concentration of sorbic acid is in the range from 0.2 to 5.0% by
weight, based on the weight of the feedstuff.
2. (Previously Presented) A feedstuff as claimed in claim 1, wherein the concentration of sorbic acid is in the range from 0.5 to 2.0 % by weight.
3. (Currently Amended) A feedstuff as claimed in claim 1, wherein the enzyme is selected from phytase, cellulase, glucanase, hemicellulase (xylanase), amylase [[,]] galactosidase, pentosanase, glucosidase, various lipases, mannase (endo-1,4- β), polygalacturonase, transglutaminase and mixtures thereof.
4. (Original) The method of using a feedstuff as claimed in claim 1 in pig rearing which comprises administering to a pig a feedstuff as claimed in claim 1.
5. (Original) The method of using a feedstuff as claimed in claim 1 in cattle rearing which comprises administering to cattle a feedstuff as claimed in claim 1.

Application No.: 10/057,533
Filing Date: January 24, 2002
Page: 3

6. (Original) The method of using a feedstuff as claimed in claim 1 in lamb rearing which comprises administering to a lamb a feedstuff as claimed in claim 1.

7. (Original) The method of using a feedstuff as claimed in claim 1 in poultry rearing which comprises administering to poultry a feedstuff as claimed in claim 1.

8. (Currently Amended) The method of using a combination of sorbic acid and at least one added enzyme for producing agricultural livestock feedstuffs which method comprises adding to a feedstuff a combination of sorbic acid in the range from 0.2 to 5.0 % by weight, based on the weight of the feedstuff, and at least one added active enzyme to a feedstuff.

9. (Canceled)

10. (Currently Amended) An addition providing treatment to agricultural livestock feedstuffs comprising sorbic acid in the range from 0.2 to 5.0 % by weight, based on the weight of the feedstuff to be treated, and at least one active enzyme.

11. (Original) An addition to feedstuffs as claimed in claim 10, where sorbic acid and enzyme are present separate from one another.

12. (New) An agricultural livestock feedstuff comprising
a solid agricultural livestock feed additive comprising
sorbic acid and
at least one active enzyme,
wherein the concentration of sorbic acid is in the range from 0.5 to 5.0% by weight, based on the weight of the feedstuff.

Application No.: 10/057,533
Filing Date: January 24, 2002

13. (New) An agricultural livestock feedstuff according to Claim 12, wherein said livestock feedstuff is extruded and/or pelletized and said solid feed additive consists essentially of sorbic acid and at least one active enzyme.

14. (Currently Amended) An agricultural livestock feedstuff comprising
a liquid agricultural livestock feed additive comprising
sorbic acid and
at least one active enzyme,
wherein the concentration of sorbic acid is in the range from 0.5 to 5.0% by weight, based on the weight of the feedstuff, and at least 80% by weight of said sorbic acid used to form said liquid feed additive exhibiting a particle size below 555 microns.
